

[illegible]Set—**C**

Day and Date of Examination _____

Signature of Invigilators

1. _____

2. _____

- 1 Candidate must write his/her Roll Number on the first page of the Question Paper.
- 2 Please check the Question Paper to verify that the total pages and the total number of questions contained in the Question Paper are the same as those printed on the top of the first page. Also check to see that the questions are in sequential order.
- 3 For the objective type of questions, you have to choose any **one** of the four alternatives given in the question i.e. (A), (B), (C) or (D) and indicate your correct answer in the Answer-Book given to you. In the case of fill in the blanks, the correct / appropriate answers should be written in the answer-book.
- 4 All the questions including objective type questions are to be answered within the allotted time and no separate time limit is fixed for answering objective type questions.
- 5 Making any identification mark in the Answer-Book or writing Roll Number anywhere other than the specified places will lead to disqualification of the candidate.
- 6 Write your Question Paper code No. **60/OS/1-C** on the Answer-Book.

ENGLISH (202)

Time : 3 Hours]

[Maximum Marks : 100

- Note :**
- (1) This question paper has **four** sections : A, B, C and D.
 - (2) All the questions are **compulsory**, including those where internal choice is given.
 - (3) All answers have to be written in the answer sheet provided.

SECTION - A (Reading)

(Marks : 15)

- 1** Based on your understanding of the following passage, answer the questions given below. Choose the best options wherever given. **1×7=7**
Each question carries one mark.

The world's first folding phone

The Royal Beta Pai is not a great-looking phone, but its flexible display works great. Ankon may be just days away from taking the wraps off its very own foldable smartphone-tablet hybrid, but consumer electronics company Royal Beta has stolen a bit of its thunder with its very own flexible display device. Called the Beta Pai, the 7.8 inch hybrid device can fold 180 degrees and transform from a tablet into a phone, albeit a bulky one.

At an event in San Francisco this evening, Royal Beta brought out a working version of the Beta Pai that we actually got to hold, and the folding feature works as advertised. Granted, it feels miles away in quality from a high-end modern flagship, but it is still the first real foldable device I've seen in person, and not just in a concept video or prototype stage.

The Beta Pai will be available as a consumer device in India with a base model price of ₹ 8,999 or around \$ 1.30. You can also pay that amount of money in USD for a developer version if you live in North America. That gets you 128GB of storage, but you can double it for an additional \$150 and add an additional 2GB of RAM for a total of 8GB.

- (i) What is special about Beta Pai ?
- (ii) Which company has brought out Beta Pai ?
- (iii) Which company was also in the race ?
- (iv) Royal Beta has *stolen a bit of its thunder* What does the italicized phrase mean ?
 - (A) use another company's idea for their benefit
 - (B) to make money from another product
 - (C) win praise by defeating a rival organization
 - (D) to take attention away from someone else
- (v) Which among the following is a disadvantage of the phone ?
 - (A) It has a 7.8 inch screen.
 - (B) It can fold 180 degrees.
 - (C) It is large compared to the other phones.
 - (D) It is both a tablet and a mobile phone.
- (vi) The cost of Beta Pai in India is _____.
- (vii) How do you get extra storage in Beta Pai ?

- 2 Based on your understanding of the following passage, answer the questions given below. Choose the best options wherever given. 1×8=8
Each question carries one mark.

Carbon footprint

A carbon footprint is defined as the total amount of greenhouse gases produced to directly and indirectly support human activities. The total amount of greenhouse gases is calculated in terms of its equivalent amount of carbon dioxide. Carbon footprint can be calculated for an individual, organization or community.

The greenhouse gas most commonly emitted by human actions is carbon dioxide. Other greenhouse gases which might be emitted as a result of human activities are methane and ozone. These greenhouse gases are also taken into account for calculating the carbon footprint.

The best way to calculate carbon dioxide emissions is based on one's fuel consumption. When you drive a car, the engine burns fuel which creates a certain amount of CO₂ (carbon dioxide), depending on its fuel consumption and the driving distance. When you use air conditioners to cool your house, the generation of the electrical power may also have emitted a certain amount of CO₂. When you buy food and goods, the production of the food and goods also emit some quantities of CO₂.

Your carbon footprint is the sum of all emissions of CO₂, which were induced by your activities in a given time frame. Usually a carbon footprint is calculated for the time period of a year. Most people are shocked when they see the amount of CO₂ their activities create! If you personally want to work towards reducing global warming, you must calculate and constantly monitor your carbon footprint.

Answer the following questions :

- (i) What is a carbon footprint ?
- (ii) Human activities mostly produce.....which is a greenhouse gas.
- (iii) Which among the following is true, according to the text ?
 - (A) Indirect human activities produce only CO₂.
 - (B) Carbon footprint is the result of methane gas.
 - (C) Measuring CO₂ in the atmosphere can stop global warming.
 - (D) Use of air conditioners increases the CO₂ in the atmosphere.
- (iv) Carbon footprint is calculated by _____.
- (v) Which among the following means of transport if used leaves the smallest carbon footprint ?
 - (A) Train
 - (B) Bicycle
 - (C) Bus
 - (D) Autorickshaw
- (vi) According to the text, what is one way to reduce global warming ?
- (vii) Carbon footprint is calculated for a period of _____.
- (viii) "Most people are shocked when they see the amount of CO₂ their activities create!" What does the writer mean by this ?
 - (A) Our activities produce more CO₂ than what we expect.
 - (B) We don't know how to calculate our carbon footprint.
 - (C) We need to cut down on some daily activities to reduce global warming.
 - (D) We need to consciously reduce carbon emission.

SECTION - B (Writing)

(Marks : 25)

- 3** Given below are three situations. Choose any **one** of them and write a paragraph on it in about 100 words. **7**
- (a) Most schools have around 7–9 subjects that all students are required to study. Which subjects do you think must be made compulsory for students ? Give your reasons why you think they are important for students to learn these subjects. Does studying these subjects contribute to the development of society and the country ?
- (b) The number of people who are at risk of health problems due to being overweight is increasing. A large number of overweight people suffer from hypertension, diabetes etc. State the reasons for the increase in the number of overweight people – both children and adults. Give your views on what the government can do to solve this problem.
- (c) Crimes committed against women and children in the society today are increasing. Some people think that unregulated sale and consumption of alcohol, use of drugs and insufficient police patrolling are the reasons for increase in crimes. Do you agree ? State your reasons why crimes are increasing. In your opinion, what can the police do to bring down the rate of crimes.
- 4** Most schools pay more attention to teaching of sciences and mathematics. Most parents also are of the opinion that arts subjects, or subjects like languages and social sciences, are not as important as sciences. However, it is studying arts subjects that helps develop creativity, improves attention, and promotes the emotional well-being of a student. Write a letter to the Secretary, U.P. Board of School Education, Lucknow, requesting that arts subjects be given equal importance as science subjects. State some advantages of pursuing an arts education, and the disadvantages if one focuses only on sciences. You are Amar/Amrita 21, Chand Nagar, Agra. **7**
- 5** Write a short article for a magazine describing a pleasant personal experience from your childhood days. You could write about the most inspiring teacher you had in school, the most important lesson you learned as a child, your biggest achievement as a child, your best friend, or any other that is vivid in your memory. Also share your thoughts and opinions on the event described. You are Mohit/Mohini. **7**

- 6 Read the following conversation : 4

Mr. Bajwa : May I speak to Dr. Rajput ?

Ms. Kranti : Sorry sir, he has gone on his rounds. I can take a message for him.

Mr. Bajwa : As per my appointment I was to meet him today at 5 p.m. I am sorry I can't come today. I request for an appointment on Friday in the afternoon.

Since Ms. Kranti is leaving the office soon, she decides to write a message for Dr. Rajput. Write down the message.

SECTION - C (Grammar)

(Marks : 30)

- 7 Complete the following paragraph by filling in the blanks : 1×6=6

The Himalayan range (i) affected (ii) activities like stone crushing, cutting of trees, large scale construction, mining and plastic waste brought (iii) by tourists.
